CAREER OBJECTIVE

Dedicated and self motivated full stack developer looking for an opportunity to incorporate my technical and problem solving skills in a dynamic-team environment.

EDUCATION

Degree	Institution	Year of passing	Aggregate Marks
B.Tech(ECE)	Vel Tech Rangarajan Dr. Sagunthala R & D Institute of Science & Technology, Chennai	2022	8.79 CGPA
Intermediate	Sri Gayatri Jr. College, Hyderabad	2018	95%
SSC	St. Mary's High School, Jangaon	2016	9.7 CGPA

WORK EXPERIENCE

Intern

Harman Connected Services, Bangalore

Sep 2021 - June 2022

- Designed and implemented an engaging user interface, ensuring a seamless user experience.
- Successfully developed the application to be responsive on various devices and optimize performance.
- Designed and implemented a modular and scalable component-based architecture, streamlining development processes and facilitating code maintenance
- Proactively stayed abreast of the latest Angular updates and best practices, implementing new features and optimizing existing ones based on industry trends.
- Worked closely with cross-functional teams, collaborating with backend developers to ensure smooth integration and functionality.
- Conducted thorough testing and debugging to guarantee the reliability and performance of the application.

- Bootstrap

Backend Development

- Nodejs
- Nestjs
- Expressjs

Database Management

- MongoDB
- MySQL

Version Control

- Git
- GitHub

Development Tools

- Visual Studio Code
- Postman

AREA OF INTEREST

- Web Development
- App Development

PERSONAL SKILLS

- Lateral Thinking
- Active Listener
- Communication
- Documenting
- Time Management

HOBBIES

- Reading books
- Going through open source projects
- Reading coding standards
- Playing chess and badminton

Associate Engineer I

Harman Connected Services, Bangalore

June 2022 - June 2023

- Developed a robust health monitoring application using Node.js with NestJS framework.
- Implemented RESTful APIs, enhancing the backend performance and scalability of the system.
- Implemented efficient data management and storage solutions, leveraging MongoDB to optimize data retrieval and manipulation.
- Utilized Git for version control, ensuring a well-organized code repository.
- Integrated Swagger/OpenAPI documentation for the NestJS APIs, enhancing the accessibility and clarity of API documentation.
- Wrote and executed unit tests to validate individual components and modules, ensuring adherence to coding standards and functionality.

Associate Engineer II

Harman Connected Services, Bangalore

July 2023 - Present

- Recognized for outstanding contributions and promoted to Associate Engineer II within one year.
- Elevated role to take on additional responsibilities and more complex tasks.
- Contributing to the maintenance of a centralized knowledge base, ensuring that documentation is easily accessible to all team members.

POC PROJECTS

- Designed front-end of a hybrid app InstaClone using Ionic Framework.
- Architected and developed a web api for InstaClone using NodeJS and NestJS Framework.
- Designed a user-friendly front-end for SwiggyClone using Ionic Framework.

CERTIFICATES

- Completed Advanced Javascript, Node Js and Nest js courses from Udemy.
- Certificated from Udemy in successful completion of 'Hybrid App Development Using Ionic Framework'.
- Certificated from Udemy in successful completion of 'Android App Development'.
